

SMART POINTS

How it works:

- Competitors can earn SMART points by placing in SMART rated tournaments (There are six SMART rated tournaments)
- SMART points are awarded to those competitors that place in the top four of their division. (Points are not rewarded for tournaments prior to the day a competitor registers)
- At the end of the year, the competitor with the most points in their division, wins the Divisional Championship
- At the end of the year, the top four competitors with the most points in their divisions are invited to the SMART State Martial Arts Championships
- The winner of this event is declared the SMART State Champion

Placement Points:

1st place = 15 points

2nd place = 9 points

3rd place = 6 points

4th place = 3 points

Point Corrections

- Competitors have 14 days from the day points are posted to inform the S.M.A.R.T. Director of any corrections.

Age and/or Rank Changes

- It is the responsibility of the competitor and/or competitors parents to inform the SMART director of any changes in age and/or rank
- If there is an age and/or rank chance, please notify the S.M.A.R.T. Director as soon as possible at either (207) 873-0684 or at csar-gent@alfondyouthcenter.org.
- If a competitor moves up in age and/or rank prior to June 30th, that competitor keeps all of their points unless that competitor's points exceed the points of the first place competitor in the new division. In that case the competitor moving into the new division keeps only the amount points equal to the points of the first place competitor in the new division.
 - Some exceptions to this rule are:
 - If a competitor moves up in age and/or rank, that competitor keeps all of their points if the current first place competitor placed in less then three tournaments.
 - Competitors that rank up to the black belt and/or turns 18 prior to the last SMART rated tournament, that competitor will be moved to the appropriate division. If the competitor ranks up to the black belt and/or turns 18 after the last SMART rated tournament, that competitor will compete in the division they were in prior to ranking up and/or aging up.
- If a competitor moves up in age and/or rank after June 30th, that competitor will continue to accumulate points in the division they were in prior to June 30th
